

# Pasta Technology Seminar

13<sup>th</sup> – 17<sup>th</sup> September 2010

Bühler AG

Business Unit Pasta  
& Extruded Products

Since many years Bühler has been organizing training sessions for the pasta industry.

For 2010 we are pleased to offer a Pasta Technology Course in English tailored to the specific training needs of leading employees.

Our headquarters will provide the necessary infrastructure as well as the specialists ensuring practice oriented continuing education.

## Take advantage of our global experience

Our specialist courses enable participants to understand, apply and successfully operate modern pasta equipment and process technologies. The “hands-on” mentality allows you to directly link theory and practise. First the theoretical background is set and then demonstrated in our well-equipped pasta pilot plant.

## Date / Duration

Monday, 13<sup>th</sup> Sept. - Friday, 17<sup>th</sup> Sept. 2010

## Language

English.

## Target group

Leading employees from the area of pasta production and process engineering, technology and quality assurance.

## Course goals

Deepening of knowledge in pasta technology, engineering and quality management. For example: raw material selection, extrusion basics, shaping and dies, drying, new production processes plus physicochemical basics of pasta technology, quality management and plant maintenance.

## Course duration

5 days.

## No. of participants

Min. 6 participants.

# Pasta Technology Seminar
